

Find Your Way Back Home

Written by: Franni Burke (BMI), Joanna Mosca (BMI), Andrew Trapp (BMI), Tyrone Corbett (ASCAP), Robert Donzella (ASCAP)

Verse

Every night I'd say a prayer for you
Even through the lies you'd somehow find the truth
Let the veil fall from your eyes
The thin disguise you always try to hide

Pre

Ohh, I remember you in better days
Ooh, don't wanna lose you

Chorus

If you could only breakaway the past
If you could only change the way you fly
If you could only dream for just one night
You would find a will to make a try
You won't be alone, once you find your way back home

Verse

I know that love is blind
But not the kind that'll make you cry
I wish that you could hear my voice
Break through the noise inside your mind

Pre

Ohh, I search for you and who you use to be
Ooh, don't let me lose you

Chorus

Bridge

I see you getting' up again, just try one more time
Don't give into darkness, find the light that's always lived inside
No need to figure out the past or know the reason why
Make it worth the tears you've cried

Chorus
